Once printed, check the accuracy of your print by fitting a credit card on the graphic below.

START DETERMINING YOUR WRIST DIAMETER:

Make a small cut on the segmented line. Adjust the measurer on the wrist on which you will wear the bracelet and pull until it is well adjusted. Then, write down the measure and compare it with the ones in the chart below!

Keep in mind that usually, so it is important to actually try it on the one wrist that will wear the bracelet and not on the other one.
